SURVIVOR PT SERIES

SURVIVOR® PT

Concrete or Steel Deck Pit-Type Truck Scales

The Ultimate In Durability...

- Up to 270,000 lb gross weight capacity
- 90,000 lb Concentrated Load Capacity (CLC)
- 90,000 lb Dual Tandem Axle rating (DTA)
- Span deflection ratio 1:3100 for legal highway loads
- 75,000 lb capacity load cells and mounts
- Concrete deck built tough with rigid main I-beams* and 8-inch structural steel cross-members
- Steel deck reinforced with support beams that provide a massive structure and prevent "dimpling" the steel top under repetitive loading

And Performance.

- Faster, more accurate weighments and less wear with PATENTED G-FORCE™ mounting system
- NTEP-certified widths to 14 feet offer faster processing of trucks and added safety for drivers
- Eliminates approach ramps in areas where space is limited
- Manufactured in accordance with ISO 9001 guidelines

*States with 48" pit clean-out requirements must specify 18" main beams at time of order. Concrete, deck rebar, and deck sheeting not included in package.

Heavy-duty steel manhole frames and covers allow easy access for below-deck maintenance.

More for your investment from top to bottom.

SURVIVOR Series scales combine industry-leading rugged dependability of mechanical scales. In a market manufactured to compete on price alone, SURVIVOR sets the ground up for lasting performance under the toughest conditions. When you choose a SURVIVOR, you're getting the most backed vehicle scale on earth. Guaranteed.

Designed for installation where space is limited, the SURVIVOR PT Series has earned a reputation for delivering quality performance in pit-type vehicle scale applications. All models begin with a design tested in extreme loading conditions, and are then constructed with the finest quality workmanship. We offer several standard sizes to satisfy most requirements. We also understand that pit-type installations often involve replacing an existing scale. Our staff of professional engineers specializes in custom-built models, multi-platform scales, that conform to the exact requirements of your site. Our ability to tailor the scale design to your site equates to a quicker installation, less overall disruption to your facility, and more savings.

The PT Series is rigidly constructed for exceptional performance in heavy-duty applications. Each model boasts wide flange I-beams that support a sturdy steel treadplate, or poured concrete deck. This heavyweight construction minimizes deflection (vertical flexing), a major factor in the weighbridge. Our patented load cell suspension system provides a maximum of 90,000 lb concentrated load capacity (CLC), making it suitable for the harshest industrial environments. We're so confident we back it with an industry-leading 10-year guarantee.

NTEP-Certified

All SURVIVOR PT concrete and steel deck models up to 14 feet wide are NTEP-certified Legal-for-Trade. CC# 98-011A1

G-Force™ – Patented self-checking mounting system

Exclusive design sets an entirely new standard for performance, efficiency and durability. The G-Force mount system eliminates excess movement and scale wear by using 100% of the gravity force from the loading action against itself—instantaneously returning the scale to dead center without check rods or bumper bolts. The result? Faster processing, consistent accuracy and less maintenance.

Check with federal, state and local authorities for vehicle scale guidelines and regulations. PT Series weighbridges are warranted against defects in materials and workmanship for

SURVIVOR® PT SERIES

Complete your scale with the highest quality accessories.

The toughest scales on Earth deserve the best... your Rice Lake Weighing Systems distributor can help you specify the system that's right for you.

- HMI Digital Weight Indicators** We offer a complete line of weight indicators, including models that can store up to 1,000 truck ID numbers and truck tares. They're available in standard or NEMA stainless steel enclosures.
- iQUBE® Intelligent Junction Box** Featuring the latest analog to digital technology for continuous scale monitoring and advanced diagnostics, iQUBE provides a value-added solution for multi-cell scale systems. A single-point ground system and fiber optic connections ensure the instrumentation is isolated from transient spikes in voltage.
- Ticket and Continuous Fanfold Printers** Our high-speed, high-quality printers include performance features like 180 characters-per-second printing and double-strike power to handle up to five-part multi-copy forms.
- Transact® Plus Data Management Software** Transact is easy to use and network capable with full reporting, accounting, and invoicing features that connect your scale to your office computer and accounting system.
- Automated Ticketing Kiosk** Rice Lake has developed the Automated Ticketing Suite kiosk system for truck identification, load assignment and weighing, and ticketing for concrete, aggregate and asphalt plant operations. With this new system, plant managers can optimize the flow of trucks and materials and increase efficiencies throughout their entire operation.
- Remote and Messaging Displays** Featuring a super-bright LED display and a non-glare filtered lens, the SURVIVOR LaserLight remote display and M-Series messaging remote display is clearly visible—even in direct sunlight. The unique IntelliBright™ feature uses a photo sensor to read ambient light to automatically adjust the display's intensity between day and night settings to optimize power usage. The 4" and 6" LaserLight and 8 and 12-character M-Series models are available with visors.
- Traffic Signals** Rice Lake traffic signals have been tested to more than 80 MPH wind conditions on a single-point attachment. Corrosion-resistant PVC coatings and stainless steel hardware make the unit fully resistant to weathering.

PT Series Specifications/Dimensions

10, 11, 12 ft widths standard.

Other scale sizes and configurations available upon request.

Length	Full Scale Capacity	Modules	Load Cells	CLC Rating
10 ft	60 tons	1	4	90,000 lb
20 ft	60 tons	1	4	90,000 lb
25 ft	60 tons	1	4	90,000 lb
30 ft	60 tons	1	4	90,000 lb
40 ft	100 tons	2	6	90,000 lb
50 ft	100 tons	2	6	90,000 lb
60 ft	100 tons	3	8	90,000 lb
70 ft	100 tons	3	8	90,000 lb
80 ft	100 tons	4	10	90,000 lb
90 ft	100 tons	4	10	90,000 lb
100 ft	100 tons	5	12	90,000 lb
120 ft	100 tons	5	12	90,000 lb

Pit scales are designed to fit inside standard-sized pits. Example: 70' x 10' scale is actually 69' 10 1/2" L x 9' 10 1/2" W.

Custom Designs Available

We manufacture and stock a wide selection of scales in the most popular sizes and capacities. We also specialize in custom solutions including unique dimensions and profiles, existing pit and foundation matching, extreme weight capacities, dump through modules, and more.

Call us at 800-472-6703 to discuss your requirements with a member of our Heavy Capacity Sales Group and to locate an authorized distributor in your region.
